CEREMONIES

BIG WEDDING STYLE

Let's make this moment last forever...for the couple who want it all, and want it personal. This package is a completely personalised ceremony, written from scratch. We will work together to tell your love story, to create a unique ceremony that will reflect the life you share together. A moment for you both to pause, acknowledge and celebrate the start of your new life as a married couple.

INCLUSIONS:

- Face to Face meet and greet. Let's meet up and start the process of weaving together your ceremony, fill out the legal paperwork and get to know each other. Coffee, beer or champers is on me!
- Personalised Ceremony. You give me the deets, and I will weave together the story of you two. Heartfelt, lovey dovey mushy wooshy or champagne toasts, fun and full of life...it's up to you. Most personalised ceremonies tend to last approximately 20-30 minutes.
- Ceremony Ideas Pack. I know that storytelling does not come easily to everyone, but don't worry I have a tried and tested questionnaire to inspire you to dig deep to get the best bits of your story so I can create an amazing ceremony that is true to you. Want to include some fun little extra's into your ceremony, I have a bunch of rad ideas to add some spice to the day.
- Professional PA System. There is nothing worse than guests not being able to hear what's going on. Your guests will definitely be able to hear everything because my PA is a professional system, and will be loud enough for everyone to hear.
- Vows Assistance. Stuck writing your vows...just can't get those epic feels onto paper. I can help you coax out the promises that are important to you and your partner to ensure that you make your commitment personal, heartfelt, tear jerkers, fun or funny. Or just use the traditional ones, it's up to you!
