CEREMONIES

Naming Days

Have you always wanted to pause, reflect and celebrate the birth of your child with a ceremony but not practicing any religion you weren't sure what you could do? That's where I come in, helping you to create a Naming Day ceremony.

INCLUSIONS:

- Meeting at your home with you and your family members to discuss your wishes for the ceremony, and – if desired – assisting with ideas for readings, music and other ways to mark the occasion.
- Contact. I will provide you with unlimited email contact, one face to face meeting and as many phone calls as required to get your day planned perfectly.
- Ceremony Ideas Pack. I know that storytelling does not come easily to everyone, but don't worry I have a pack of ideas to inspire you to dig deep to get the best bits of your story so we can create an amazing ceremony. Do you want a ritual to mark this occasion? I have a pack of ideas to suit all ceremonies.
- Preparing and writing the ceremony. Together with you and your family, I will prepare a ceremony for you to review and edit as required. From the poems chosen and music played, it will all be a reflection of you and your family values.
- Liaising with other family members who will play a role in the ceremony to ensure that they are aware of any readings or rituals you wish them to take part in.
- Travel. All travel for our face to face meeting and service is included in this package within Newcastle and The Hunter Valley (outside this area will be quoted separately).
- Professional PA System. There is nothing worse than guests not being able to hear what's being said. Your guests will definitely be able to hear everything because mine is a professional system, and will be loud enough for everyone to hear.
- Presenting of the ceremony at your chosen location.

Naming Days
